

SHRINE MOSQUE IN PITTSBURG POINTS PLAN IN HONOLULU

"Sunny Jim" McCandless Tells How New Temple Affords Splendid Auditorium

HONOLULU SHRINER HOME FROM STAY ON MAINLAND

Has Been Active in Boosting for Knights Templar Excursion Here in February

James S. McCandless—"Sunny Jim" to all Hawaii and a considerable part of the mainland—returned to Honolulu this morning on the Matsonia brimful of good spirits and optimism as usual, and with a budget of interesting news. Mrs. McCandless is with him.

Here are some of the items: He has just returned from the dedication of a magnificent mosque for the Syria Temple of Shriners at Pittsburg, where he visited in his capacity as a high member of the Shrine's imperial divan. This temple embodies an idea which McCandless is convinced may be made a feature in Honolulu—a Shrine building equipped with a splendid auditorium for public use.

He visited Buffalo for the meeting of the imperial council in July, the city being filled with more than 300,000 visitors.

On the coast he was instrumental in launching the plans for the Knights Templar excursion to Hawaii next February. "Sunny Jim" brings the news that California Commandery No. 1, San Francisco, is certain to carry through this big excursion feature, which is under its auspices. More than 100 staterooms on the Great Northern have been engaged and it is expected that the excursion will attract at least 200 Knights and their ladies. Commander McMurtrie is at the head of the plans.

Seen just after leaving the steamer, McCandless said:

"Yes, I am glad to be home again. Hawaii, or Honolulu, looks good to me. Mrs. McCandless is just as pleased as I am. She is very happy.

"I went to Buffalo, N. Y., to attend the meeting of the Imperial Council of the A. O. N. M. Shrine in July. This was the largest attended meeting ever held by the order. There were over 300,000 visitors. One hundred and five bands and patrols took part in the two parades.

"Every man in the line of officers was boosted up one position. I am now the first ceremonial master. The new man elected out guard is Mr. James C. Burger of Denver, Colorado. As usual these were 12 or 15 candidates for this office. It is the stepping stone to office on the imperial divan.

"Aloha Temple was represented by three of her Nobles, Potentate Thomas E. Wall, Arthur Wall and myself. We opened up our headquarters on the second floor of the Stalter Hotel (official headquarters) where we gave away 10,000 leis and our Hawaii coffee. We did not serve any Hawaiian pineapples, for the simple reason we did not have them to serve. They, for some reason or other, failed to arrive. We did our best to get them. But we had a good time, meet all of our old friends and made some new ones.

"I have just returned from my second trip East, this last trip was for the sole purpose of taking part in the ceremonies at the dedication of Syria Temple's magnificent new mosque, Pittsburg, Pa.

"This temple cost about \$700,000 and seats 5000 people. It is beautiful on the inside but very plain on the outside.

"The Imperial Potentate was there and nearly all of his divan."

IN WAR ARENA

ITALIAN TORPEDOERS BUSY IN ADRIATIC

LONDON, Eng., Nov. 7.—A spectacular action on the part of Italian torpedo boats, which penetrated to the anchorage of the Austrian fleet in Austria's big naval base at Pola, near the head of the Adriatic Sea, and boldly attacked a great warship of the dual monarchy, was one of the outstanding features yesterday of the war news.

The swift torpedo sea stingers dashed boldly into the harbor and launched two torpedoes at the warship, the torpedoes, however, missing their mark.

The destroyers succeeded in making their escape from Pola unharmed. An attack of equal boldness and daring under the shadow of the guns of Durazzo, on the Albanian littoral, was made by Italian torpedo boats, with better success. This time their torpedoes reached their mark, with the result that a large steamer of the enemy was sent to the bottom.

GEN. GROENER TO BE GERMAN FOOD DICTATOR

LONDON, Eng., Nov. 7.—Despatches received here today from Berlin say that the Berlin Post announces that Gen. Groener is to be made dictator of economics with absolute power to deal with all exports and imports and with all food questions.

U. S. JURY THURSDAY

Federal trial jurors have been notified to be in court at 8:30 o'clock next Thursday morning instead of Wednesday morning as heretofore announced.

NEW STYLE DIME TURNED OUT BY BAY CITY MINT

Several Thousand Coins Issued and Banks are Kept Busy Supplying Demand

Honolulu may expect soon to see dimes of the new design. The first lot from the San Francisco mint went out October 30 and relative to the new design the Chronicle of San Francisco said in its issue of October 21:

"Uncle Sam turned loose a new dime yesterday, and between the souvenir cranks and the man who is afraid of odd-looking coins, the banks had a busy time. Several thousand of the new coins were issued by the local mint, where they have been reposing for several weeks under the watchful eye of Superintendent T. W. H. Shanahan, awaiting orders from Washington. Shanahan has shipped large quantities to Chicago, St. Louis, New Orleans and other cities, where they also made their first appearance yesterday.

"The new coin was designed by Adolph Weinman, the sculptor whose figures of Descending Night and the Rising Sun delighted exposition visitors last year.

"The obverse side of the coin bears the head of the Goddess of Liberty, with the year and the legend, 'In God we trust.' The reverse side shows a Roman fasces or mace, with the familiar 'E Pluribus Unum' at one side. A tiny 'S' indicates San Francisco as the place of coinage. On the obverse side the sculptor's initials are shown in monogram. While there is no law governing this question, it was reported from Washington yesterday that treasury department officials were considering whether the initials of the designer should be eliminated and coinage temporarily suspended, as in the case of the original Lincoln penny."

FINAL CAMPAIGN RALLIES HELD IN SPITE OF 'JUPE'

"Jupe Pluvius" took a hand in the political game Monday night, and by 5 o'clock had succeeded in virtually breaking up the three campaign meetings that were staged at Ala Park—one by the Republicans, one by the Democrats and the other on the bond issue which is a feature of today's election.

It is estimated that 10,000 persons crowded into the park, some before the G. O. P. platform, others before the Bourbon stand and the rest passing and from the speaking places. The Republicans had the Hawaiian band and moving pictures. Both parties had 15 or more orators, and nearly all of the candidates spoke during the evening.

At the bond issue meeting a forceful address was delivered by Mayor John C. Lane. A number of other persons spoke on the same subject. In spite of the rain the big triple rally formed a splendid closing of the campaign that has been in progress during the last few weeks, with both parties working in the interests of their candidates.

JNO. M. SASS IS DEAD IN EUREKA

(Special Star-Bulletin Correspondence)

EUREKA, Cal., Oct. 31.—Allments incident to his advanced years resulted in the death here yesterday of John M. Sass, for the past 45 years prominent in business circles in Eureka and Honolulu. Mr. Sass first came to Eureka in 1870 as a marine engineer. After being engaged in the shipping business here for nine years he went to Honolulu where he established the first ice plant in the islands and for many years acted as its manager.

In 1888 Mr. Sass returned to Eureka and established the McCabe-Duprey tannery near Freshwater. In 1897 he disposed of this business and returned to Honolulu where he followed business pursuits until three years ago when he came to Eureka to make his home. Sass was always known as a progressive business man who had the interests of his home city at heart. For many years he was an active member of the Humboldt Chamber of Commerce.

Deceased was born in Wisconsin 55 years ago. He is survived by two sisters-in-law, Mrs. K. E. Rogers of Eureka and Mrs. E. J. McCoy of San Francisco, and two nieces, Mrs. J. M. Hutchison and Mrs. Neil McMillan, both of Eureka.

Arrangements have been made to hold the funeral Wednesday afternoon at 1:30 o'clock from the home of his niece, Mrs. McMillan, corner of Grotto and D streets, thence to St. Bernard's Catholic church, where services will be held at 2 o'clock. Interment will take place in Buckspoint cemetery, under the direction of W. K. Porter.

Historical Facts of Princess Kaiulani Christening Given

Princess Kaiulani, from one of her best photographs, the favorite of her father, the Hon. A. S. Cleghorn.

The King and Queen of Hawaii stood as the God-parents of Princess Kaiulani at the christening of the royal child on January 1, 1875.

This statement is made by Mrs. Lilly Haunamoa Richards Auld, who was present at the christening, and her statements are substantiated by the account of the christening appearing in the issues of the Weekly Pacific Commercial Advertiser of that early period of Kaiulani's life. The statement of this fact is of particular historical importance, since the birthday of Princess Kaiulani is always celebrated by the children of Kaiulani school, and often recognized by events in other schools. Mrs. Auld was an intimate friend of the princess' mother and desires that the children shall be accurately informed.

The princess at the time of her christening was held in the arms of High Chiefess Kahahukaakoi, a cousin of Her Royal Highness Princess Serenice Pauahi, wife of Hon. C. R. Bishop. Mrs. Helen Kaloloahilani Kinney, wife of the superintendent of public instruction, is a granddaughter of High Chiefess Kahahukaakoi.

Interesting Story Told The historical data as told in the news columns of the Pacific Commercial Advertiser, to which reference has been made by Mrs. Auld, tells the story of the birth of Princess Kaiulani and her later christening in a manner and under dates as given below:

The Pacific Commercial Advertiser, Saturday, October 23, 1875: "On Saturday morning last, the 16th inst., Her Royal Highness the Princess Miriam Likelike, sister to His Majesty the King, and wife of the Hon. A. S. Cleghorn, was safely delivered of a daughter. At 4 p. m. all the bells of the city rang a merry peal in honor of the infant princess."

MURDER CHARGE AGAINST I. W. W. IS AFTERMATH

(Associated Press by Federal Wireless)

EUREKA, Wash., Nov. 7.—Charges of murder, made by both sides participating in the trouble, were the aftermath last night of the pitched battle that occurred here last Sunday between a steamer load of Industrial Workers of the World and a sheriff's posse of citizens seeking to prevent the I. W. W.'s from landing here.

The public prosecutor announced last night that he would prefer charges of murder against all members of the I. W. W. whom it was possible to identify as having participated in the battle with the citizens of Eureka.

Counter Charges Secretary Malder of the I. W. W. made a counter declaration to the effect that he would prosecute on charges of murder all the members of the Everett Citizens' Committee. Each side declared that the other started the shooting. Four passenger and two express cars were overturned when a New York Central train was derailed at Ames Crossing, between Saranac Lake and Lake Placid, New York.

Finds Night On Mount Tantalus Bad Experience

H. E. Vernon, general agent in Honolulu of the Santa Fe, is today celebrating the first weekly anniversary of his return from a "lost on Tantalus" experience which he gladly tells about as a warning on Honolulu trails but does not care to do over again.

"If you are going on a long hike, start early," says the railway agent, "so you will have plenty of daylight in which to get home. Darkness was the cause of my plunk. Also take a guide if you don't know a trail yourself."

Vernon started up the Palolo trail from Kaimuki, went around Mount Olympus and ended near Tantalus about 5:30 in the evening when it was already getting dark. He knew two trails, the Tantalus and the Pacific Heights routes, but had heard there was a shorter way home in between. He found what he thought to be such a trail, took a chance with it and lost. "I went down the trail very rapidly," he says, "but suddenly ended up in heavy timber when it was quite dark with no sign of a trail through the underbrush. To all appearances the earth had suddenly swallowed it. I was dressed very lightly for tramping and a chilly rain which would naturally start at such a sad moment began to pour. I climbed to a ridge, slipped in the wet grass and later in a tree in a very miserable condition. The morning sun and the right way home certainly looked good to me."

DR. FISHER IS MURDERED FOR BEING AMERICAN

Confirmation of Killing Reaches El Paso; Trevino Fortifying Chihuahua City

(Associated Press by Federal Wireless)

EL PASO, Texas, Nov. 7.—Confirmation of the death of Dr. Fisher at the hands of Villista bandits, when they captured Santa Rosalia, was brought here yesterday by American passengers from Chihuahua City. Dr. Fisher was executed, they report, solely on the ground that he was an American citizen.

Villa, with his main army, was reported yesterday to have been in the neighborhood of Mesa de Sandias, 25 miles southwest of Parral, where it is said his sympathizers have hidden stores of ammunition for him and gathered together a large number of horses.

Gen. Trevino, in command of the Carranzistas at Chihuahua City, is making active preparations to meet any attack on the part of Villa. Trevino has mounted cannon to dominate all the approaches to the city and has an armored train and a number of field guns ready.

Reinforcements Promised

From the City of Mexico comes a report that troops from Sonora have been ordered to the assistance of Trevino.

The Mexican capital also reports that Under Secretary of the Treasury Nieto has left for the United States to confer with Gen. Cabrera regarding the matter of Mexican finances.

SATURDAY WILL BE SEAL DAY ALL OVER HONOLULU

No possible selling places will be overlooked next Saturday by the Hawaii Boy Scouts when they start on their one-day Christmas seal-selling campaign. Everyone in Honolulu that day is asked to have their change ready for the little tin boxes wherever they may be.

Street-car intersections and terminals, matinees at the theaters, football games, Waikiki beach, every place in the city where citizens are likely to travel, will be paroled by the boys in khaki. Several of them in the spracely settled districts will employ bicycles; machines will shoot about the city all day, collecting the donations and sales and delivering fresh supplies of seals and banks.

The seals which are suitable for Christmas letters, cards and packages, will cost one cent apiece. They will be conveniently done up in packets for 10, 25 and 50 cents and \$1. Ninety per cent of these sales goes to fight tuberculosis in Honolulu. Ten per cent goes to the American Red Cross. Any donations which are made will all remain in Honolulu.

PRESIDENT FAVORS CIVIL SERVICE EXAMS. FOR POSTMASTERS

(Associated Press by Federal Wireless)

NEW YORK, N. Y., Nov. 7.—President Wilson, on the eve of the national presidential election, wrote a letter yesterday to the national civil service commission in which he said that he is in favor of legislation providing for the appointment of all postmasters, of whatever class, through competitive civil service examination.

The president's announcement on this subject follows by several days a statement by his opponent, Charles

GOVERNOR TELLS YOUNGSTERS HOW TO GET SUCCESS

Answers Letter of Children in California School; Says Work Fundamental

Concentration on the fundamentals of character and specialization in one or two branches of work, according to Gov. Pinkham, are things that count largely for success. This is the message sent by the governor to the boys of B seventh grade, Portola school, San Francisco, in answer to a request for his definition of "the royal road to success."

The letter from the school boys asking for the governor's definition is as follows:

"San Francisco, Cal., October 16, 1916.

"His Excellency, Lucius E. Pinkham,

Governor of Hawaiian Islands.

"Mr. Governor: The boys and girls in the B seventh grade of the Portola school of San Francisco are interested to know what are the first steps to success. We are therefore writing to men who have already attained success, asking them to tell us, if they will, how to take the first steps. Will you kindly help us to become good citizens by telling us how?"

"We thank you for a reply.

"Respectfully yours,

"B SEVENTH GRADE PORTOLA SCHOOL.

"San Francisco, Cal., per Francis Mulligan."

Governor Pinkham stopped on the work of a busy day to look over the letter from the school children. Then he wrote:

"November 6, 1916.

Boys and Girls of B Seventh Grade, Portola School,

San Francisco, Cal.

"Care Francis Mulligan.

"There is no royal or special road to success and the sooner educators and pupils abandon that idea, cease scattering their efforts, concentrate on the fundamentals of character and attainment, and in these times of specialization try to excel in one or two branches, maintain a keen general intelligence, use athletics for health, not rooting; study human nature, avoid responsibilities for which you are not prepared, the nearer success will be within your grasp, although unforeseen circumstances are the great arbiters of life.

"American born boys and people do not fully appreciate or embrace their opportunities or world trend as they should, hence will arise many of the tremendous problems of the future for our country.

"Respectfully,

"LUCIUS E. PINKHAM, Governor of Hawaii."

BAND WILL MEET GREAT NORTHERN OUTSIDE PORT

Chamber of Commerce and Mayor Complete Plans to Receive Tourists

One week from today the Hill steamer Great Northern, bound from mainland ports to Hawaii on her first voyage of the season and carrying passengers who come from every corner of the United States, will steam majestically up to the entrance of Honolulu harbor. There, with the Hawaiian band playing Aloha-Oe and other Hawaiian melodies, the big liner will be boarded by John C. Lane, mayor of Honolulu, and Raymond C. Brown, secretary of the Chamber of Commerce, and other members of the city staff and chamber, who will welcome her and bid the passengers aloha.

As a special tribute to the occasion and in honor of the members of the Los Angeles chamber of commerce, who as a representative body from the Angel City, are making their first visit, a koa wood key, emblematical of the beauty and strength of the island's greetings, will be presented by Mayor Lane.

Monday a message was received from San Francisco by Fred Waldron stating that the Great Northern would be permitted to stop and allow the party to board her. With this assured Brown has engaged a lunch and Mayor Lane has consented to permit the Hawaiian band to go outside to meet the big steamer and conduct her to the dock.

STAR-BULLETIN GIVES YOU TODAY'S NEWS TODAY

Evans Hughes, Mr. Hughes last week issued a statement in which he said he was strongly in favor of similar legislation.

"YOU HAVE SWEETENED MY disposition," said a lady, the other day. The Chiropractic adjustments had improved her general health, that the cause of her sourness had disappeared. Try Chiropractic—and "Keep Smiling."

SPOT QUOTATION HIGHEST KNOWN IN MANY YEARS

Buyers Are Forced to Meet Terms of Producers to Secure Needed Supplies

(Special Correspondence from Nevets & Callaghan, 99 Wall Street.)

NEW YORK, N. Y., Oct. 27.—The market continued its gradually advancing trend during the past week and following fairly large transactions at 6.52c (51-2c basis 96 degrees c. & f. for Cubas) the spot quotation advanced 13c to 6.65c (51-2c basis 96 degrees c. & f. for Cubas) which price was paid by an outfit refiner for a small cargo of first half November clearance Cubas and subsequently by a local refiner for a small parcel of Cubas for immediate clearance. During the month of May this year, a limited quantity of Cubas for forward shipment sold at 51-2c basis 96 degrees c. & f. (6.65c), but it has not been possible to sell spot sugars at this price until the present time and the ruling spot quotation of 6.65c is the highest recorded in a great many years. At the close of last week the market apparently had been cleared of prompt Cubas at 51-2c basis 96 degrees c. & f. (6.52c), but at the opening of this week additional quantities appeared at this price which were not accepted until a moderate export business in refined was placed, whereupon refiners, principally to cover this export business, bought about 125,000 bags of Cubas from store and for prompt and first half November shipments on the basis of 51-2c basis 96 degrees c. & f., thereby again clearing the market of all prompt Cubas available at this price. At the same time, refiners also bought several small parcels of full duty-paying sugars from store and afloat at 51-1c basis 96 degrees "in bond" and "c. i. f." Following these transactions, buyers continued willing to pay 51-2c basis 96 degrees c. & f. for Cubas in any position, but only succeeded in securing a small quantity for straight November shipment at this price, as holders of prompt parcels raised their views to 51-2c basis 96 degrees c. & f. (6.65c). Holders of 17,000 bags of afloat and prompt shipment Porto Ricos accepted 6.52c basis 96 degrees c. i. f., which price had been previously unobtainable for such sugars. Towards the close of the week holders of a limited quantity of Cubas succeeded in obtaining 51-2c basis 96 degrees c. & f. (6.65c) but there are still moderate quantities of store and prompt shipment Cubas still on offer at this price. The market is quiet at the close with buyers temporarily holding back but with sellers very confident and firm in their ideas.

During the week a limited business has been done in new crop Cubas on the basis of 41-2c basis 96 degree c. & f. for first half January shipment in combination with equal quantities for first half February shipment, the full particulars being withheld.

The weekly cable from Cuba on October 23 reported no centrals grinding and no receipts. Exports amounted to 39,646 tons, reducing the stock at shipping ports to 186,700 tons, as compared to 213,000 tons last year and 95,000 tons in 1914. Messrs. Willett & Gray report for the week ending October 25 receipts at U. S. Atlantic ports 42,145 tons and nettings for the same period 59,000 tons, thereby reducing the total stock in all hands to 69,652 tons, as compared to 211,609 tons and 309,900 tons at the corresponding dates in 1915 and 1914, respectively.

At the opening of this week all refiners were quoting refined on the basis of 7.50c less 2 per cent, excepting the Warner S. R. Co., who were temporarily withdrawn, but who subsequently reentered the market quoting 7.50c less 2 per cent on hard grades with a concession of 10 points on soft sugars. During the week the Federal S. R. Co. advanced prices to 7.60c less 2 per cent and later to 7.75c less 2 per cent. The National S. R. Co., Warner S. R. Co. and Arbuckle Bros. all advanced to 7.60c less 2 per cent, but the American S. R. Co. has made no change from 7.50c less 2 per cent.

The trading in options during the week reached a total of 75,000 tons. Closing quotations today are: November 5.47c and 5.39c, December 5.21c and 5.22c, January 4.65c and 4.76c, February 4.36c and 4.37c, March 4.33c and 4.35c and May 4.41c and 4.43c.

SHACKLETON STARTS ON SECOND RESCUE TRIP

(Associated Press by Federal Wireless)

SYDNEY, N. S. W., Nov. 7.—Lieut. Ernest Shackleton, hero of the Antarctic, who was shipwrecked in the polar regions, compelled to leave most of his men, reached civilization, and then, a few months ago, returned and rescued 29 of his crew whom he had left on Elephant Island, will sail from Australia again tomorrow to plunge into the regions of perpetual ice and snow to bring back, if possible, the remaining 16 men of his original command.

"YOU HAVE SWEETENED MY disposition," said a lady, the other day. The Chiropractic adjustments had improved her general health, that the cause of her sourness had disappeared. Try Chiropractic—and "Keep Smiling."
